Vacuuming naturally with water

Prices and information

Refreshingly different.

For more than 100 years.

Many people do not realise that they have already come across our technologies many times. As a developer of the first electrically powered metal washing machine and manufacturer of spin dryers, we are represented in many products from different reputable brands and manufacturers. Our family has been active in Siegerland for four generations and we have remained MADE IN GERMANY.

We have always been committed to providing innovative products that are based on the needs and desires of our customers. We simply listen carefully when it comes to the development of new products. Based on market research, we know that many consumers expect more than the current range of vacuum cleaner can offer. A good reason for you to fully rely on THOMAS vacuum

cleaners. Whether small, flexible bag vacuum cleaners with superior hightech equipment, bagless vacuum cleaners with unique AQUA filtertechnology and AQUA+ technology or the world's first bagless Cycloon Hybrid models. If you are looking for a special vacuum cleaner, THOMAS is the right place for you.

Of course, the products of THOMAS fulfil all important and current standards in terms of quality, environment and energy efficiency, regularly receive awards and achieve excellent test results. Raw materials are used in a sustainable way and processed using state-of-the-art technology.

**THOMAS is refreshingly different.
Then and now.**

One for all & All in one

The new THOMAS AMFIBIA PRO models are unique all-rounders for a wide range of household cleaning requirements. The bagless vacuum cleaners combine vacuum cleaner, wet cleaner, siphon cleaner, wash vacuum cleaner and air freshener in one - without changing appliances. Powerful with 1700 watts max. suction power and a 2in1 filter technology for quick vacuuming in between, wet cleaning and odor absorption.

The most important advantages at a glance

- + All in one solution for pet households
- + Fast and efficient wet cleaning with high pressure spray system.
- + Unique 2in1 technology: AQUA-filterbox for odor control and thorough wet cleaning; CYCLOON-filterbox for quick vacuuming in between uses
- + Vacuuming without dust bag: no follow-up costs, no unpleasant dust bag disposal
- + Extensive range of special nozzles
- + Suction power regulation by radio remote operation in the handle
- + Powerful 1700 Watt max. Motorpower
- + Continuously high suction power with every suction process with the AQUA filter box
- + MADE IN GERMANY

2in1 Technology

CYCLOON Filtration

AQUA Filtration

Innovative 2in1 filter technology of the THOMAS PRO Series models For maximum flexibility.

The new models of the AMFIBIA PRO series combine the unique and effective THOMAS AQUA+ technology with the latest 2in1 filter technology. The powerful spray suction function ensures vacuuming, mopping and drying in a single operation, as well as fiber-deep stain removal. The CYCLOON-filterbox is ideal for quick vacuuming in between. The AQUA-filterbox ensures maximum hygiene and air freshening by binding dust, hair, pollen and dirt in water. The result: clean floors, hygienically fresh upholstery and noticeably refreshed room air.

The spray extraction system

Completely clean home, fresh air, healthy living for the whole family!

1. Spray in cleaning solution deeply with pressure.
2. Dissolves dirt and washes it deep out of the fibres.
3. Powerful aspiration of dirty water and straightening of carpet fibres.

AMFIBIA PRO4ALL

Especially for families

Art. no./EAN code	Weight	Dimensions (mm)	SU	QTY
788 705	8,57 kg	486 / 318 / 307	1	16

Product description

- + Bagless 2in1 filter technology
- + AQUA-filterbox – water filter system for fresh vacuuming
- + CYCLOON-filter box with double chamber system for separating coarse dirt and fine dust
- + AQUA+ technologie with special spray pressure system
- + HEPA 13 filter, washable
- + 1700 Watt max. motor power
- + Radio remote operation in the handle for suction power regulation and switching the device on/off
- + 3 stage suction power with current-saving ECO control
- + Cable length 8m/11m action radius
- + Automatic cable rewind
- + 360° easy-drive castor
- + Premium textile hose with external spray hose

Accessories

- + „EasyClean“ spray extraction nozzle for hard floors and carpets with innovative dual technology
- + Parquet cleaning nozzle for wet cleaning, 2 microfibre pads (parquet + hard floor)
- + Spray extraction upholstery nozzle
- + Siphon nozzle
- + ProTex cleaning concentrate
- + Switchable floor nozzle CleanLight+ with LED-light
- + Powerful turbo brush
- + Upholstery nozzle
- + Mattress nozzle
- + Crevice nozzle 360 mm long
- + Furniture brush with swivel joint
- + Vario- Clip
- + Accessory storage bag
- + XXL dust bag

The world's first hybrid cycloon vacuum cleaner

A vacuum cleaner for all (floor) surfaces: With the DryBox AMFIBIA you can efficiently remove dirt and dust from hard floors and carpets – and even wash them thoroughly. Particularly sensitive floor coverings such as parquet and laminate can be cleaned especially gently, as the innovative AquaStealth scrubbing head washes and dries them in a single operation – the best solution for every household!

The most important advantages at a glance:

- + Fast and efficient wet cleaning with high pressure spray system.
- + Removes fine dust and larger impurities with the unique THOMAS DryBox system.
- + Cleans and refreshes the air by the AQUA-filterbox with water filtration system
- + Continuously high suction power
- + Easy and fast cleaning of the boxes
- + Vacuuming without dustbag: no additional costs
- + HEPA13 filter, washable
- + Powerful 1700 Watt motor power
- + Made in Germany

The spray extraction system

Completely clean home, fresh air, healthy living for the whole family!

1. Spray in cleaning solution deeply with pressure.
2. Dissolves dirt and washes it deep out of the fibres.
3. Powerful aspiration of dirty water and straightening of carpet fibres.

Excellent: Innovative technology with added value.

The impressed jury awarded the technology of the THOMAS DRYBOX product line with the 'German Innovation Award – Winner.' The DRYBOX AMFIBIA models are multifunctional vacuum cleaners that powerfully remove pet hair and dirt while also purifying and refreshing the indoor air. Perfect for pet owners, allergy sufferers, and health-conscious individuals."

DRYBOX
Amfibia

Wash vacuum cleaner with 2in1 filtration

DRYBOX AMFIBIA

CYCLOON
Filterbox

Perfect for quick cleaning

Cyclone vacuuming with THOMAS CYCLOON-filterbox.

Invented by THOMAS: The innovative CYCLOON-filterbox has a double chamber system, where allergenic very fine dust is separated from animal hair and coarse dust. Another big advantage: Thanks to its innovative removal and opening mechanism, emptying the filterbox is not only particularly quick, but also particularly easy. Thus the THOMAS CYCLOON-filterbox delivers what users want.

Quite easy: Opening.

Super easy: The quick emptying.

If necessary, rinse out empty fine dust chambers with water

AQUA
Filterbox

Noticeably cleaner and fresher air

Fresh vacuuming with the THOMAS AQUA-filterbox.

Whenever you need it: The cyclone box is quickly replaced with the AQUA filterbox filled with just one litre of water and the fresh vacuuming may begin! Odour molecules as well as animal hair and dust are absorbed and bound in the water. The air is 100 % noticeably refreshed.

DRYBOX AMFIBIA FAMILY
 Especially for families

Art. no./EAN code	Weight	Dimensions (mm)	SU	QTY
788 599	8,57 kg	486 / 318 / 307	1	16

Product description

- + First cyclone vacuum cleaner with AQUA+ technology in a single appliance

Accessories

- + Switchable carpet and hardfloor nozzle
- + Turn around parquet nozzle
- + Upholstery nozzle
- + Joint nozzle with suction brush attachment
- + Spray-extraction carpet and hard floor nozzle
- + Spray-extraction upholstery nozzle
- + ProTex cleaning concentrate

A new dimension of cleanliness.

The refreshingly different all-rounder from THOMAS. Whether you want to vacuum and wipe your parquet floor in one go, or if you have above-average hygiene requirements as a pet owner, or whether you are dependent on perfectly clean air due to allergies or asthma - the THOMAS AQUA+ is just right for you.

The most important advantages at a glance:

- + Easy to handle
- + With a special spray pressure system
- + Cleans and refreshes the room air
- + Constantly high suction power during each vacuuming
- + Easy cleaning
- + Vacuuming without a dust bag, no additional costs, and no unpleasant disposal of the dust bag
- + 100 % filter separation of pollen
- + Made in Germany

The AQUA filter-system

With the AQUA filter-system house dust, pollen, dust mites and other allergens are bound in water and disposed of with the dirty water.

1. The aspirated air is humidified with water in the ejector.
2. Subsequently, the moistened dust particles are bound in the water.
3. Clean exhaust.

The spray extraction system

Fiber-deep cleaning of textiles, upholstery, and carpets.

1. Spray in cleaning solution deeply with pressure.
2. Dissolves dirt and washes it deep out of the fibres.
3. Powerful aspiration of dirty water and straightening of carpet fibres.

Wash Vacuum Cleaner with Multi-stage water filter system

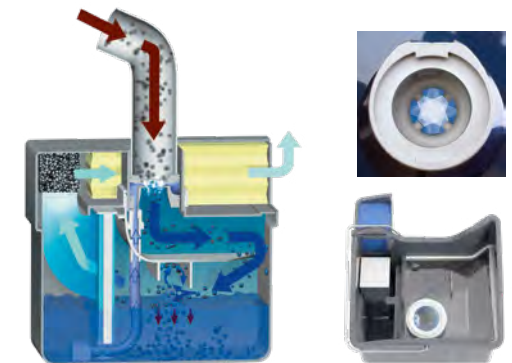

The refreshingly different all-rounder from THOMAS. Whether you want to vacuum and wipe your parquet floor in one go, or if you have above-average hygiene requirements as a pet owner, or whether you are dependent on perfectly clean air due to allergies or asthma - the THOMAS AQUATIC is just right for you.

The most important advantages at a glance:

- + Easy to handle
- + With a special spray pressure system
- + Cleans and refreshes the room air
- + Constantly high suction power during each vacuuming
- + Easy cleaning
- + Vacuuming without a dust bag, no additional costs, and no unpleasant disposal of the dust bag
- + 100 % filter separation of pollen
- + Made in Germany

The multi-stage water filter system

A special technology. It's multi-stage water filter system consists of an INJECTION + AQUA-CYCLONE-FILTER, HEPA-FILTER and a Micro-Exhaust-Filter. Floor dust, pollen, mites and other allergens are being bound in the water and disposed off with the dirty water.

The spray extraction system

Fiber-deep cleaning of textiles, upholstery, and carpets.

1. Spray in cleaning solution deeply with pressure.
2. Dissolves dirt and washes it deep out of the fibres.
3. Powerful aspiration of dirty water and straightening of carpet fibres.

The first bagless hybrid cyclone vacuum cleaner.

Ideal for all those who attach great importance to a healthy living environment and cleanliness. Dirt, dust and animal hair are quickly vacuumed up and kept in the CYCLOON-filterbox. Fine dust, bacteria and allergens are bound in water when vacuuming with the AQUA filter box

- The most important advantages at a glance
- + The AQUA filter box for refreshed air in the room
 - + For quick vacuuming in between: efficient dirt removal with the cyclone filterbox
 - + Separation of fine dust and coarse dirt in the cyclone filterbox
 - + Particularly quick and easy emptying of both boxes
 - + Powerful, efficient vacuuming without a dust bag
 - + Vacuuming without a dust bag: no follow-up costs, consistently high suction power
 - + HEPA13 pollen protection filter system with activated charcoal filter
 - + Made in Germany

Outstanding innovative technology

The first bagless hybrid cyclone vacuum cleaner. Optionally with cyclone technology or AQUA filter technology.

Awarded innovative technology

The impressed jury awarded the technology of the THOMAS CYCLOON HYBRID product line with the ‚German Innovation Award – Winner.‘ The Cycloon Hybrid is the first 2-in-1 hygiene and cyclone vacuum cleaner that powerfully removes pet hair and dirt while also purifying and refreshing the indoor air. Perfect for pet owners, allergy sufferers, and health-conscious individuals.“

PERFECT Air

Bagless cleaner with aqua filtration

The AQUA filtration

With the AQUA filtration house dust, pollen, dust mites and other allergens are bound in water and disposed of with the dirty water.

1. The aspirated air is humidified with water in the ejector.
2. Subsequently, the moistened dust particles are bound in the water.
3. Refreshed air

Deep fibre cleaning of textiles, upholstery, and carpets.

Instead of a bag, the THOMAS perfect air features the unique AQUA filter box, which is filled with just 1 litre of water. Household dust, pet hair, pollen, mites, and other allergens are completely trapped in the water and can be simply poured away after vacuuming. This means nothing is released into the air, and even the exhaust air is 100% noticeably refreshed!

Fresh air without dust bags

Vacuum cleaner refreshingly different – especially for allergy sufferers, pets owners and those who expect absolute dust freedom and want to breathe freely again. Many people are not yet convinced about today's bagless – cyclone technology based on the collection of dust in a container. The benefit of the bagless perfect air principle is: By emptying the AQUA-filterbox filled with dirty water no dust or odour particles can escape back into the air. Simply perfect.

The most important advantages at a glance:

- + Ideal for allergy sufferers
- + 100 % noticeably refreshed air
- + HEPA13 Filter
- + Easy to operate
- + Easy cleaning
- + Constantly high suction power every time you vacuum
- + No dust formation while emptying
- + 100 % degree of separation with pollen
- + Made in Germany

ANIMAL PURE

Hygienic bag change

Contact-free and allergy-friendly. The BX7 from THOMAS enables dust-free emptying - ideal for allergy sufferers. The dust bag closes automatically and is ejected without contact - for clean, simple and hygienic handling without a cloud of dust.

AQUA FloorCleaner

Damp mopping refreshingly simple

The AQUA FLOORCLEANER hard floor cleaner from THOMAS is ideal for cleaning smooth hard floors, especially parquet and laminate. Dirt is picked up and wiped in one step, leaving only a small amount of residual moisture behind. Even small amounts of liquid are no problem and are quickly removed. With this cleaning method, the FLOORCLEANER uses water so sparingly and precisely that surfaces are only cleaned „damp“. Floors are always wiped with fresh water and can be walked on again in no time at all. Super quick and easy. Ideal for quick mopping in between.

The most important advantages at a glance:

- + Up to 35 min. battery power
- + Smart LED display
- + Effective edge cleaning
- + Self-cleaning at the touch of a button
- + Cordless - with powerful Li-Ionen battery
- + Always clean with fresh water

AQUA FleckWasher

The powerful stain remover for households with pets.

No more stains! With powerful 1400 Watt max. motor power and a 4 bar special pressure pump, fibre-deep stains and dirt don't even have a chance. Stains are removed effectively and thoroughly with the AQUA FLECKWASHER. The cleaning solution is sprayed with pressure deep into the textiles, the dirt is removed and vacuumed up again with the dirty water, all in one operation. Environmentally friendly and without chemicals! The powerful vacuum cleaner can hold a total of up to 8 liters of liquids. Practical for broken pipes or minor mishaps. Made in Germany.

- The most important advantages at a glance:**
- + Powerful 1400 watt max. motor power
 - + 4 bar pressure pump
 - + Deep stain removal
 - + Holds up to 8 liters of dirty water
 - + Environmentally friendly siphon cleaning – completely without chemicals
 - + Made in Germany

Powerful stain removal & siphon cleaning

BIN Vacuum Cleaner

The long-lasting specialists

THOMAS bin cleaners not only look impressive, but are also made to impress with their performance, they are particularly long-lasting, extremely reliable and will meet the most difficult tasks. THOMAS bin vacuum cleaners have well developed technology with an extensive range of accessories for every cleaning task. In short: However difficult or challenging the task, these cleaners offer the best cleaning solution, something you would expect from the genuine specialist!

The most important advantages at a glance:

- + Durable and high performance
- + Sophisticated, proven technology
- + Strong, efficient cleaning
- + Extensive range of accessories

Well-designed quality

A clear argument: THOMAS dust and wash vacuum cleaners are practical, well-designed everyday helpers of outstanding quality. No matter how big the challenge, these products clean deep down to the roots.

THOMAS dust and wash vacuum cleaner: hygienic deep cleaning & stain removal.

Wash, care, wipe and vacuum. If daily vacuuming is no longer sufficient, if carpets, carpeted floors and upholstery need thorough cleaning, they have their major appearance: The cleaning solution is sprayed powerfully into the textile fabrics and absorbed with the loosened dirt.

THOMAS dust and wash vacuum cleaners with water filter: fiber-deep cleanliness & fresh air.

Same as the THOMAS wash vacuum cleaners they vacuum, care for and wipe all different types of floors, clean carpets, carpeted floors and upholstery - but additionally also freshen the air. Through their bagless water filter system house dust, mites, pollen as well as allergens are immediately bound in the water thus keeping the exhaust air fresh and pure.

THOMAS wet and dry vacuum cleaners: for inside & outside.

Whether in households, in the cellar, in the hobby area, in the workshop, in the garage or also on the patio in the garden or on the balcony: If coarse dirt or wet material shall be eliminated quickly and efficiently, these specialists are simply indispensable! Made for big challenges, they even remove sludge residue from gutters or pick up dirt from a blocked drain

VAPORO Buggy

Perfect hygiene for your home

The THOMAS VAPORO BUGGY ensures thorough cleanliness in your home – completely without chemicals. Whether tiles, worktops, windows, or bathroom fixtures – with a steam pressure of 3.5 bar, it effortlessly removes even stubborn dirt such as grease stains or limescale deposits. The hot steam eliminates 99.99% of all bacteria on surfaces, without harsh cleaning agents or laborious scrubbing. With the THOMAS steam cleaner, deep cleaning becomes effortless – for a hygienic home you can see and feel.

Steam cleaner

VAPORO BUGGY

Thorough cleaning without chemicals

Art. no./EAN code	Weight	Dimensions (mm)	SU	QTY

- + Cleaning cloth
- + Window nozzle
- + Scraper
- + Round brush large
- + Round brush small with brass bristles and hard bristles
- + Point jet nozzle
- + Filling funnel
- + Measuring cup

For faster drying

For small or large households THOMAS spin dryers are simple but a clever solution! They are not only ideal for hand washing in between washes, but are also environmentally friendly and energy-saving. With 2,800 revolutions per minute, they significantly reduce the amount of residual rinse water, thereby minimizing energy-intensive drying time in the dryer. In addition, the spin cycle greatly reduces iron and detergent residues.

The most important advantages at a glance:

- + Easy to operate
- + Energy saving
- + Shorter drying time
- + Wrinkle-resistant and gentle spinning
- + Well developed safety technology
- + For everything that is needed quickly again
- + Made in Germany

CENTRI 772 SEK

Central vacuum cleaner 450 ZA/451 ZA

My house can vacuum!

A central vacuum cleaner with radio remote control makes vacuuming particularly convenient. And also particularly quiet. This is because the actual vacuum cleaner unit is located in the basement, for example. Via a suction line dust and dirt are vacuumed directly into the unit down in the basement.

Made in Germany

- The most important advantages at a glance:
- + Quiet cleaning
 - + Practical radio remote control
 - + Easier vacuuming of stairs
 - + 100% hygienic dust-free vacuuming - particularly suitable for allergy sufferers
 - + Made in Germany

www.thomas-centraclean.de

The perfect vacuum cleaner for allergy sufferers.

The THOMAS CENTRACLEAN Central vacuum system ensures perfect hygiene and is ideal for allergy sufferers, as no exhaust air is released back into the room

1. Plug the hose into the socket
2. Switch on the central vacuum system directly on the handle via radio
3. Start vacuuming
4. Enjoy the cleanliness
